

Webwise Webinar: Screen Time Advice for Parents and Families

Presented by [WebWise](#) and [Enable Ireland National AT Training Service](#)

Join Webwise for an informative webinar exploring what current research tells us about screen time and how to support children in developing healthy digital habits.

Designed for parents, carers, and therapists who support families, this session will examine the evidence on screen time, including both the potential benefits and risks. The webinar will also provide practical advice that parents can use at home, along with trusted resources and supports for further guidance.

Topics include:

- What screen time is and what current research tells us
- The potential benefits and risks of screen use
- Practical advice for parents
- Useful resources and supports

Wednesday, August 19
