Supporting Your Child Online: A Online Safety Webinar for Parents and Carers

Presented by WebWise and Enable Ireland National AT Training Service

As a parent and carer, you are your child's first and most important guide in the digital world. Whether the child uses technology for learning, communication, connection, or assistive technology (AT), it's essential to feel confident supporting their digital life safely and in a balanced way.

This practical and informative session will help you:

- Understand the benefits and risks of being online
- Set healthy boundaries and screen habits
- Recognise and respond to issues like cyberbullying and inappropriate content
- Talk openly with children about what they do online
- Use parental controls, privacy settings, and safety tools
- Find reliable resources and ongoing support

Wednesday, November 11
10:00 AM - 11:00 AM
